

PRESS RELEASE

FOR IMMEDIATE RELEASE

Advantech's Newly Launched Mobile Antenna's Now Being Delivered

Montreal, Canada, April 14, 2008 -- Advantech AMT, a world leading manufacturer of satellite and terrestrial wireless communication equipment with corporate headquarters in Montreal, Canada are delighted to see its first antenna systems delivered and broadcasting, hot on the heels of the launch in February at Satellite2008. Each system incorporates Advantech's innovative IPOINT auto acquisition controller which enables anyone to acquire satellites in less than 3 minutes from a push of a button and allows the system to be ready to communicate as soon as you are.

Advantech has delivered the first two integrated *Pioneer120* with 100W Extended Ku-band amplifiers. The two systems were delivered to Gestiona Servicios Audiovisuales, Spain and are now fully integrated and commissioned in a turn-key DSNG truck supplied by Gestiona to a Spanish broadcaster.

Commenting on the antenna systems Cesar Hernandez Monedero, Managing Director of Gestiona, said "We are delighted with the antenna systems and the level of support offered by Advantech, we hope that this will be the first of many". Vagan Shakhgildian President of Advantech AMT added, "We are delighted to be shipping our first system so soon after the launch of the new antenna line, the response to our integrated antenna solutions has been phenomenal and we are looking forward to great things from this product line!"

Advantech will have on display a *Pioneer120* at the NAB show, in Las Vegas April 14th through April 17th, and will be taking bookings for customers who want a live demo. If you cannot attend NAB this year and don't want to miss out on the chance to trial one of Advantech's new fleet of antenna then email us at antenna.demo@advantechamt.com to request an antenna and the for which you would like your trial.

About Advantech AMT

Advantech AMT is a world-class designer and manufacturer of leading edge communication products for Satellite Ground Stations and for Wireless Base Stations. With offices in Canada, Europe and the U.S.A, Advantech AMT provides global product support expertise.
