Advantech Wireless Expands in Ontario – New Jobs Created

Montreal, Canada, January 25, 2011— Advantech Wireless, a Quebec-based corporation announced today that it has expanded operations in Toronto, Ontario. The new facility will serve as a Research and Development Centre of excellence to explore next generation wireless technologies and products. It will also serve as a technical support facility across all product lines. Advantech Wireless will hire Engineers and support staff over the next months.

“Advantech Wireless has always been on the forefront of new technologies. Our new GaN-based RF products, VSAT DVB-RCS Hubs and terminals, High Performance Modems, Routers and Point to Point Microwave Radios are best in class! This new R&D facility will strengthen our position as the leading provider of wireless communications” states David Gelerman, CEO Advantech Wireless.
