

## Advantech Wireless KR Series Rugged Military Products Showcased at CANSEC 2012

**Montreal, Canada, May 30th, 2012** —Advantech Wireless, a Canadian-based manufacturer of Satellite, RF Equipment and Microwave Systems, building upon recent successes in Europe for its ruggedized products, is proud to announce its new KR Series of products for military applications. This new product line will be featured at the CANSEC 2012 show in Ottawa, Ontario Canada May 30, 2012 through May 31, 2012.

The Advantech Wireless KR Series features the Mobile Communications Unit – MCU 2000, the 3G/WiFi Router, the Remote Eye wireless audio/video camera, the Wireless Bridge WBR-2000, the Eagle Eyes wireless video, voice and Location Vest Unit and the Sniper Wireless Ballistic Calculator System. Designed for in-theatre use, these products offer state-of-the-art technology in compact and rugged form factors.

In addition, Advantech Wireless will also show its newest generation Raptor/Discovery TDMA/SCPC VSAT HUB and terminals, for instant Tactical Satellite Mobile communications, the RAR9160 ruggedized router and the AMT73L MIL-STD-188-165A DISA certified FDMA modem. The performance features of Advantech Wireless products include high performance and interoperability, while meeting the demanding environmental and reliability requirements of the military.

“Maintaining secure and reliable communications is vital for military applications. This line of military products is to be used in some of the harshest places on the map,” states Pierre Cardinal, VP Global Sales at Advantech Wireless. “Our proven track record in providing communication equipment to key defence agencies in deployments around the globe was instrumental in expanding our product line at this time.”

### **About Advantech Wireless**
