

FOR IMMEDIATE RELEASE

Advantech Wireless Delivers 100 GaN BUCs to Asia

Montreal, Canada, June 29, 2012 —Advantech Wireless, a Canadian-based manufacturer of DVB-RCS VSAT Hubs, RF Equipment and Microwave systems, is proud to announce that it has completed the shipment of 100 GaN-based Solid State Power Amplifiers to a major Satcom operator based in Asia.

The Advantech Wireless Ku-band GaN based SSPA technology was the preferred choice for the customer due to high efficiency, low energy consumption, high reliability and high ambient operating temperature.

Combined with light weight, smallest size, these units fit perfectly into the mission critical, harsh environment, mobile Satcom environment.

We are proud to offer to our customers the most advanced and sophisticated technology available, designed to meet the most demanding requirements.

While competitors' designs are still on the drawing board, Advantech Wireless is delivering real-world solutions today – and with the best warranty in the business!
